1. INTRODUCTION

There has been a great deal of emphasis on developing entrepreneurship in the country to promote first generation entrepreneurs. Realizing the effective role of entrepreneurship in the process of industrialization in the developed countries, India and others developing nations viewed this as an effective measure to develop entrepreneurship to promote national production, balanced regional development, and dispersal of economic power and provide better employment opportunities.

It was stressed by researchers that the economic backwardness might be attributed largely to inadequacy of the supply of entrepreneurship in the regions. If this deficiency can be removed by developing entrepreneurship, the problem of unemployment will be solved and the region will be able to compete with the rest of the country. Moreover, it is a fact that the youth (18-35age) contribute Forty percent (40%) of total population of India. Therefore, it is important to encourage youth to take up entrepreneurship as a career for the growth and development of the country. Over the past few years the government through various ministries has launched various skill development training programmes in the country and tried to develop and enhance the skills of youth, so that they may be easily getting the employment in the market. The 2009 Skill Development Policy clearly specified that skills-related training should become outcome- focused and linked to jobs and employability.

The current scenario shows that it is very difficult to provide the job to everyone. Therefore the option left is only entrepreneurship and if we want to harness the potential of youth then we have to work on development of entrepreneurship as parallel to skill development. The skilled youth must be motivated and diverted toward entrepreneurship. The Scheme of Jan Shikshan Sansthan (JSS) scheme under Ministry of Skill Development & Entrepreneurship is implemented through NGOs with 100% grants from the Government of India. The mandate of the scheme is to provide vocational skills in non-formal mode to non- literate, neo-literates, persons with rudimentary level of education upto 8th and school drop- outs upto 12th standard in the age group of 15-45 years. The priority groups are women, SC, ST, Minorities and other backward sections of the society. JSSs are reaching to the unreached are as to cater the needs of the poorest of the poor. There is a need for development of a strategy that outlines how entrepreneurship should be supported within the vocational training

system.

NIESBUD proposes to conduct Trainers Training Programme for the JSS Trainers and Entrepreneurship Development Programme for JSS Trainees followed by mentoring and handholding to trainees who have strong desire to pursue entrepreneurial opportunities. The efforts in this direction will yield a positive result in promoting entrepreneurship in future within the skill ecosystem.

The Ministry of Skill Development and Entrepreneurship has taken initiatives to include Entrepreneurial inputs in the skill training programmes through different schemes. Moreover, it is felt that to give more speed to the mission of entrepreneurship promotion, we have to create the entrepreneurial environment in the country and aware the youth about entrepreneurship as a career option. It can be possible through systematic capacity building, handholding, mentoring. This will help in creating the congenial climate for entrepreneurship through systematic and planned efforts.

2. OBJECTIVES

- The broad objectives of the Proposal cover the followings:
- To impart knowledge on Entrepreneurship among the JSS trainees;
- To acquaint the participants about entrepreneurial opportunities;
- To develop their confidence level and impart the basic management skills;
- To prepare the financial project reports for setting up their own enterprises;
- To acquaint them about the Entrepreneurship Support Eco –System;
- To equip the participants with appropriate skill in identifying and selecting projects;
- To acquaint them with the basic steps in formulation of micro
