## **About NIESBUD**

The National Institute for Entrepreneurship and Small Business Development is a premier organization of the Ministry of Skill Development and Entrepreneurship, engaged in training, consultancy, research, etc. in order to promote entrepreneurship and Skill Development. The major activities of the Institute include Training of Trainers, Management Development Programmes, Entrepreneurship-cum-Skill Development Programmes, Entrepreneurship Development Programmes and Cluster Intervention. NIESBUD has provided training to 12,88,225 persons as of till day through 48,700 different training programmes since inception. This includes 5,134 international participants hailing from more than 145 countries throughout the globe.

## **Trainer's Training Programme on Employability, Entrepreneurship & Life Skills**

There has been a great deal of emphasis on developing entrepreneurship in the country to promote first generation entrepreneurs. Realizing the effective role of entrepreneurship in the process of industrialization in the developed countries, India and others developing nations viewed this as an effective measure to develop Entrepreneurship to promote national production, balanced regional development, and dispersal of economic power and provide better employment opportunities.

It was stressed by researchers that the economic backwardness of a region might be attributed largely to inadequacy of the supply of entrepreneurship in the region. If this deficiency can be removed by developing entrepreneurship, the problem of unemployment will be solved and the region will be able to compete with the rest of the country. Moreover, it is a fact that the youth (18-35 age) contribute Forty percent (40%) of

the total population of India. Therefore, it is important to encourage youth to take up entrepreneurship as a career for the growth and development of the country. Over the past few years, the government through various ministries has launched various skill development training programmes in the Country and tried to develop and enhance the skills of youth, so that they may be easily getting the employment in the market. The 2009 Skill and Entrepreneurship Development Policy clearly specified that skills-related training should become outcome-focused and linked to jobs and employability

The vision of the national policy is over all human resource development and outcome in the form of enhancing their skills and ability according to the demand of industries. This will enhance the employment opportunities for the youth of the country. But again the question arises as the employability scenario; to how much skill youths can be observed by the Industries or by market. The NSDA, NSDC, NSDF and 33 Sectors Skill Councils (SSCs) and 187 Training partners are acting as a catalyst in developing and enhancing the Skill of the youths according to the need of the industries under this mission, the Ministry of Skill Development and Entrepreneurship has taken the initiative of promoting and spreading the Entrepreneurship Culture by including Entrepreneurship in the Skill training Programmes. NIESBUD has been conducting the Trainers Training Programmes on Employability, Entrepreneurship and Life skills for the trainers on a regular basis and have received an overwhelming response from the participants. The ToT developed by NIESBUD for the trainers of TPs/SSCs for YUVA project 2.0 of Delhi Police under YUVA Project 2.0 is an attempt to orient trainers on Entrepreneurship. The purpose of the ToT is to build the capacity of the trainers, so that they will be able to encourage, guide, and motivate the beneficiaries of YUVA Project of Delhi Police from the very initial stages of the program towards entrepreneurship & selfemployment.

The outcome of this training will be that the Trainers will enhance their skill on entrepreneurship and will be able to give proper counseling and guidance to the students who want to set up their enterprises.

## **Objective**
